the dielectric material to plasma to convert silicone oil or other silicon-containing residue to silica prior to applying an adhesive.

Claim 22 is allowable for the same reasons cited for the allowance of claim 1 in parent application 09/248,341, now U.S. Patent 6,206,997. As noted on page 7 of the office action mailed 6/30/00 (Paper #4) of the parent application there is no suggestion in Roth or the prior art of record to expose a polymer surface to plasma to convert silicon-containing residue present on the surface to silica.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
